# SUMMARY SECTION

---

## INVESTMENT OBJECTIVE

---

The investment objective of the Bogle Investment Management Small Cap Growth Fund (the “Fund”) is to provide long-term capital appreciation.

---

## EXPENSES AND FEES

---

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

	<u>INSTITUTIONAL CLASS</u>	<u>INVESTOR CLASS</u>
<b>SHAREHOLDER FEES</b> (fees paid directly from your investment)		
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price) . . . . .	None	None
Maximum Deferred Sales Charge (Load) . . . . .	None	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends . .	None	None
Redemption Fee (as a percentage of amount redeemed, if applicable) . . . . .	None	None
Exchange Fee . . . . .	None	None
<b>ANNUAL FUND OPERATING EXPENSES</b> (expenses that you pay each year as a percentage of the value of your investment)		
Management Fees . . . . .	1.00%	1.00%
Distribution (12b-1) Fees . . . . .	None	None
Other Expenses . . . . .	0.44%	0.44%
Shareholder Servicing Fee . . . . .	<u>0.00%</u>	<u>0.10%</u>
Total Annual Fund Operating Expenses . . . . .	1.44%	1.54%
Fee Waivers and Expense Reimbursements <sup>(1)</sup> . . . . .	<u>(0.19)%</u>	<u>(0.19)%</u>
Net Expenses . . . . .	<u>1.25%</u>	<u>1.35%</u>

<sup>(1)</sup> Bogle Investment Management, L.P. (the “Adviser”) has contractually agreed to waive management fees and reimburse expenses to the extent that Total Annual Fund Operating Expenses (excluding certain items discussed below) exceed 1.25% and 1.35% for the Institutional Class and Investor Class, respectively. In determining the Adviser’s obligation to waive advisory fees and/or reimburse expenses, the following expenses are not taken into account and could cause net Total Annual Fund Operating Expenses to exceed 1.25% or 1.35%, as applicable: acquired fund fees and expenses, brokerage commissions, extraordinary items, interest or taxes. This contractual limitation is in effect until December 31, 2012 and may not be terminated without the approval of the Board of Directors of The RBB Fund, Inc. The Adviser, in its discretion, has the right to extend this waiver.

## EXAMPLE

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The table below shows what you would pay if you invested \$10,000 in the Fund over the various time periods indicated. The Example assumes that you invest \$10,000 in the fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	<u>1 YEAR</u>	<u>3 YEARS</u>	<u>5 YEARS</u>	<u>10 YEARS</u>
Institutional Class	\$127	\$437	\$769	\$1,708
Investor Class	\$137	\$468	\$821	\$1,818

## PORTFOLIO TURNOVER

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transactions costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 302.71% of the average value of its portfolio.

---

## PRINCIPAL INVESTMENT STRATEGIES

---

The Fund seeks to achieve its objective by investing under normal circumstances at least 80% of the net assets of the portfolio (including borrowings for investment purposes) in the stocks of U.S. companies with market capitalizations, at the time of purchase, that are within the range of the market capitalizations of those companies that are included in the Russell 2000® Index ("Small Cap Stocks"). The Fund attempts to achieve its objective by taking long positions in Small Cap Stocks that the Adviser believes are undervalued given their future earnings growth prospects. The Adviser will manage the portfolio such that its median market capitalization is reasonably close to the median capitalization of the Russell 2000® Index. As part of its investment strategy, the Adviser will continue to invest in Small Cap Stocks that the Adviser believes will appreciate more than the Russell 2000® Index. Shareholders will be notified by the Fund sixty days in advance of any change in this 80% policy.

Because companies tend to shift in relative attractiveness, the Fund may buy and sell securities frequently, which may result in higher transaction costs.

---

## PRINCIPAL RISKS

---

- Common stocks may decline over short or even extended periods of time. Equity markets tend to be cyclical; there are times when stock prices generally increase, and other times when they generally decrease. Therefore, you could lose money by investing in the Fund.
- The Fund will invest in Small Cap Stocks that may be more volatile than investments in issuers with larger market capitalizations. Issuers of Small Cap Stocks are not as diversified in their business activities as issuers with larger market capitalizations and are more susceptible to changes in the business cycle.

- The net asset value (“NAV”) of the Fund will fluctuate with changes in the market value of its portfolio positions.
- Although the Fund will invest in stocks that the Adviser believes to be undervalued, there is no guarantee that the prices of these stocks will not move even lower.
- The Fund may frequently trade its portfolio securities. High portfolio turnover will cause the Fund to incur higher brokerage commissions and transaction costs, which could lower the Fund’s performance. In addition to lower performance, high portfolio turnover could result in taxable capital gains.

---

## RISK/RETURN INFORMATION

---

The chart below illustrates the long-term performance of the Fund’s Investor Class. The information shows you how the Fund’s performance has varied year by year and provides some indication of the risks of investing in the Fund. The chart assumes reinvestment of dividends and distributions. As with all such investments, past performance (before and after taxes) is not an indication of future results. Performance reflects fee waivers in effect. If fee waivers were not in place, the Fund’s performance would be reduced. Updated performance information may be obtained at [www.boglefunds.com](http://www.boglefunds.com) or 1-877-264-5346.

### TOTAL RETURNS FOR THE CALENDAR YEARS ENDED DECEMBER 31

Best and Worst Quarterly Performance (for the periods reflected in the chart above):

Best Quarter: 33.33% (quarter ended June 30, 2009)

Worst Quarter: (28.63)% (quarter ended December 31, 2008)

Year-to-date total return for the nine months ended September 30, 2011: (16.03)%

## AVERAGE ANNUAL TOTAL RETURNS

The table below compares the Fund's average annual total returns for the past calendar year, the past five calendar years and the past ten calendar years to the average annual total returns of a broad-based securities market index for the same periods. Past performance (before and after taxes) is not necessarily an indicator of how the Fund will perform in the future.

### AVERAGE ANNUAL TOTAL RETURNS FOR THE PERIODS ENDED DECEMBER 31, 2010

	<u>1 Year</u>	<u>5 Years</u>	<u>10 Years</u>
Investor Class Before Taxes	29.02%	1.18%	6.59%
Investor Class After Taxes on Distributions <sup>(1)</sup>	29.02%	(0.11)%	5.43%
Investor Class After Taxes on Distributions and Sale of Fund Shares	18.86%	0.77%	5.51%
Institutional Class Before Taxes	29.25%	1.29%	6.69%
Russell 2000® Index <sup>(2)</sup>	26.85%	4.47%	6.33%

<sup>(1)</sup> After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts (IRA). After-tax returns are shown for only the Investor Class and may vary for the Institutional Class.

<sup>(2)</sup> The Russell 2000® Index is an unmanaged index that is comprised of the 2,000 smallest of the 3,000 largest U.S. domiciled corporations, ranked by market capitalizations. As of November 30, 2011 the minimum market capitalization of the Russell 2000® Index is \$5 million and the largest stock is \$3.7 billion. Please note that this range is as of a particular point in time and is subject to change.

## MANAGEMENT OF THE FUND

---

### **Investment Adviser**

Bogle Investment Management, L.P.

### **Portfolio Manager**

John C. Bogle, Jr., President, since inception

---

## PURCHASE AND SALE OF FUND SHARES

---

<u>Class</u>	<u>Minimum Initial Investment</u>
Institutional shares	\$1,000,000
Investor shares	\$10,000 (\$2,000 minimum for IRA accounts)

You can only purchase and redeem shares of the Fund on days the New York Stock Exchange (the "NYSE") is open. Institutional and Investor Class shares of the Fund may be available through certain brokerage firms,

financial institutions and other industry professionals (collectively, "Service Organizations"). Shares of the Fund may also be purchased and redeemed directly through The RBB Fund, Inc. by the means described below.

**Purchase and Redemption by Mail:**

*Regular Mail:*

Bogle Investment Management Small Cap Growth Fund  
c/o BNY Mellon Investment Servicing (US) Inc.  
P.O. Box 9809  
Providence, RI 02940

*Overnight Delivery:*

Bogle Investment Management Small Cap Growth Fund  
c/o BNY Mellon Investment Servicing (US) Inc.  
4400 Computer Drive  
Westborough, MA 01581

**Purchase by Wire:**

Before sending any wire, call the Transfer Agent at 1-877-264-5346 to confirm the current wire instructions for the Bogle Investment Management Small Cap Growth Fund.

**Redemption by Telephone:**

Call the Transfer Agent at 1-877-264-5346

---

## TAX INFORMATION

---

The Fund's distributions may be taxable as ordinary income or capital gains or a combination of the two, unless you are investing through a tax-advantaged arrangement, such as a 401(k) or IRA.

---

## PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES

---

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

---

## ADDITIONAL INFORMATION ON THE FUND'S INVESTMENT OBJECTIVE AND PRINCIPAL STRATEGIES

---

The investment objective of the Fund is to provide long-term capital appreciation. In seeking this objective, the Fund attempts to achieve a total return greater than the total return of the Russell 2000® Index. The Russell 2000® Index is an unmanaged index that is comprised of the 2,000 smallest of the 3,000 largest U.S. domiciled corporations, ranked by market capitalizations.

The Fund attempts to achieve its objective by taking long positions in Small Cap Stocks that the Adviser believes are undervalued given their future earnings growth prospects. The Fund will primarily invest in securities principally traded in the U.S. markets. The Fund may also invest in futures contracts and options on futures contracts as an alternative to purchasing a specified type of security.

The Adviser will determine the size of each position by analyzing the tradeoff between the attractiveness of each position and its impact on the risk of the overall portfolio. The Board of Directors of The RBB Fund, Inc. (the "Company") can change the investment objective of the Fund. However, shareholders will be given notice before any change is made.

The Fund's long positions may involve (without limit) equity securities of foreign issuers that are traded in the markets of the United States as sponsored American Depositary Receipts ("ADRs"). ADRs are receipts issued by a U.S. bank or trust company evidencing ownership of the underlying foreign securities. Generally, ADRs, in registered form, are designed for use in U.S. securities markets. The ADRs may not necessarily be denominated in the same currency as the foreign securities underlying the ADRs. The Fund will not invest directly in equity securities that are principally traded outside of the United States.

In addition to investments expected to meet the preceding criteria, the Fund may also invest in certain instruments related to the Standard & Poor's 500® Composite Stock Price Index (the "S&P 500® Index") and the Russell 2000® Index (described above). The S&P 500® Index is an unmanaged index composed of 500 common stocks, most of which are listed on the NYSE. The S&P 500® Index assigns relative values to the stocks included in the index, weighted according to each stock's total market value relative to the total market value of the other stocks included in such index. The Fund may invest in S&P 500® Index futures, options on S&P 500® Index futures, Russell 2000® Index futures and equity swap contracts.

The Fund may seek to increase its income by lending portfolio securities to institutions, such as certain broker-dealers. Portfolio securities loans are secured continuously by collateral maintained on a current basis at an amount at least equal to the market value of the securities loaned. The value of the securities loaned by the Fund will not exceed 33⅓% of the value of the Fund's total assets. The Fund may experience a loss or delay in the recovery of its securities if the borrowing institution breaches its agreement with the Fund. Lending the Fund's portfolio securities involves a variety of risks, not limited to the risk of delay in receiving additional collateral if the value of the securities goes up while they are on loan.

The Fund may hold cash or cash equivalents pending investment or to meet redemption requests. In addition, for defensive purposes due to abnormal market or economic situations, as determined by the Adviser, the Fund may reduce its holdings in other securities and invest up to 100% of its assets in cash or certain short-term (less than twelve months to maturity) and medium-term (not greater than five years to maturity) interest-bearing instruments or deposits of U.S. and foreign issuers. Such investments may include, but are not

limited to, commercial paper, certificates of deposit, variable or floating rate notes, bankers' acceptances, time deposits, government securities and money-market deposit accounts. To the extent the Fund employs a temporary investment strategy, the Fund may not achieve its investment objective.

---

## ADDITIONAL INFORMATION ON THE PRINCIPAL RISKS OF INVESTING IN THE FUND

---

### GENERAL

There can be no assurance that the investment methodology employed will satisfy the Fund's objective of long-term capital appreciation. Additionally, an investment in the Fund will be subject to the risk of poor stock selection by the Adviser. In other words, the Adviser may not be successful in executing its strategy and may invest in stocks that underperform the market.

The value of the fixed income securities held by the Fund, and thus the NAV of the shares of the Fund, generally will vary inversely in relation to changes in prevailing interest rates.

The value of Fund shares may increase or decrease depending on market, economic, political, regulatory and other conditions affecting the Fund's portfolio. Investment in shares of the Fund is more volatile and risky than some other forms of investment.

### SECURITIES OF SMALL COMPANIES

Investments in common stocks in general are subject to market, economic and business risks that will cause their price to fluctuate over time. While securities of small market value companies may offer greater opportunity for capital appreciation than the securities of larger companies, investment in smaller companies presents greater risks than investment in larger, more established companies. Historically, small market value stocks have been more volatile in price than larger market value stocks. Among the reasons for the greater price volatility of small market value stocks are the lower degree of liquidity in the markets for such stocks, and the potentially greater sensitivity of such small companies to changes in or failure of management and changes in competitive, business, industry and economic conditions. Besides exhibiting greater volatility, small company stocks may, to a degree, fluctuate independently of larger company stocks. Small company stocks may decline in price as large company stocks rise, or rise in price as large company stocks decline. You should therefore expect that the price of the Fund's shares will be more volatile than the shares of a fund that invests in larger capitalization stocks. Additionally, such securities may trade less frequently and in smaller volume than more widely held securities. The values of these securities may fluctuate more sharply than those of other securities, and the Fund may experience some difficulty in establishing or closing out positions in these securities at prevailing market prices. There may be less publicly available information about the issuers of these securities or less market interest in such securities than in the case of larger companies, and it may take a longer period of time for the prices of such securities to reflect the full value of their issuers' underlying earnings potential or assets. The Fund should not be considered suitable for you if you are unable or unwilling to assume the risks of loss associated with such an investment program, nor should investment in the Fund be considered a balanced or complete investment program.

### DISCLOSURE OF PORTFOLIO HOLDINGS

A description of the Company's policies and procedures with respect to the disclosure of the Fund's portfolio securities is available in the Fund's Statement of Additional Information ("SAI").

# MANAGEMENT OF THE FUND

---

## INVESTMENT ADVISER

---

The Adviser's principal address is 2310 Washington Street, Suite 310, Newton Lower Falls, Massachusetts 02462. The Adviser manages the Fund's investment activities, subject to the authority of the Company's Board of Directors. The Adviser has provided investment management and investment advisory services to the Fund and other institutional accounts since 1999. The Adviser also serves as a shareholder servicing agent to the Investor Class of the Fund pursuant to a Shareholder Servicing Agreement between the Company and the Adviser.

Pursuant to an investment advisory agreement with the Company, the Adviser is entitled to an advisory fee computed daily and payable monthly at the annual rate of 1.00% of the Fund's average daily net assets. The Adviser has contractually agreed to waive management fees and reimburse expenses to the extent that Total Annual Fund Operating Expenses (excluding certain items discussed below) exceed 1.25% and 1.35% for the Institutional Class and Investor Class, respectively. In determining the Adviser's obligation to waive advisory fees and/or reimburse expenses, the following expenses are not taken into account and could cause net Total Annual Fund Operating Expenses to exceed 1.25% or 1.35%, as applicable: acquired fund fees and expenses, brokerage commissions, extraordinary items, interest or taxes. This contractual limitation is in effect until December 31, 2012 and may not be terminated without the approval of the Company's Board of Directors. For the fiscal year ended August 31, 2011, after waivers, the Adviser received 0.82% of the Fund's average net assets in investment advisory fees from the Fund.

A discussion regarding the basis for the Company's Board of Directors approving the Fund's investment advisory agreement with the Adviser is available in the Fund's annual report to shareholders dated August 31, 2011.

## PORTFOLIO MANAGER

John C. Bogle, Jr. serves as portfolio manager of the Fund. Mr. Bogle founded the Adviser in 1999 and currently serves as its President. From 1990 to 1999, Mr. Bogle was a Managing Director of Numeric Investors LLC<sup>®</sup> (formerly Numeric Investors L.P.), a quantitative investment management firm.

The SAI provides additional information about the portfolio manager's compensation, other accounts managed by the portfolio manager and the portfolio manager's ownership of securities in the Fund.

# SHAREHOLDER INFORMATION

---

## PRICING OF FUND SHARES

---

Shares of a class of the Fund are priced at their NAV. The NAV of a class of the Fund is calculated as follows:

$$\text{NAV} = \frac{\text{Value of Assets Attributable to a Class} - \text{Value of Liabilities Attributable to the same Class}}{\text{Number of Outstanding Shares of the Class}}$$

The Fund's NAV is calculated once daily at the close of regular trading hours on the NYSE (generally 4:00 p.m. Eastern time) on each day the NYSE is open. The NYSE is generally open Monday through Friday, except national holidays. The Fund will effect purchases and redemptions of Fund shares at the NAV next calculated after receipt of your order or request in good order.

The Fund's equity securities listed on any national or foreign exchange market system will be valued at the last sale price, except for the National Association of Securities Dealers Automatic Quotation System ("NASDAQ"). Equity securities listed on NASDAQ will be valued at the official closing price. Equity securities traded in the over-the-counter market are valued at their closing prices. If there were no transactions on that day, securities traded principally on an exchange or on NASDAQ will be valued at the mean of the last bid and ask prices prior to the market close. Fixed income securities having a remaining maturity of 60 days or less are valued at amortized cost, which approximates market value. Fixed income securities having a remaining maturity of greater than 60 days are valued using an independent pricing service. When prices are not available from such services or are deemed to be unreliable, securities may be valued by dealers who make markets in such securities.

If market quotations are unavailable or deemed unreliable by the Fund's administrator, in consultation with the Adviser, securities will be fair valued by the Adviser in accordance with procedures adopted by the Company's Board of Directors and under the Board of Directors' ultimate supervision. Relying on prices supplied by pricing services or dealers or using fair valuation involves the risk that the values used by the Fund to price its investments may be higher or lower than the values used by other investment companies and investors to price the same investments.

Investments in other open-end investment companies are valued based on the NAV of those investment companies (which may use fair value pricing as discussed in their prospectuses). Investments in exchange-traded and closed-end funds will be valued at their market price.

---

## MARKET TIMING

---

In accordance with the policy adopted by the Company's Board of Directors, the Company discourages and does not accommodate market timing and other excessive trading practices. Purchases should be made with a view to longer-term investment only. Excessive short-term (market timing) trading practices may disrupt portfolio management strategies, increase brokerage and administrative costs, harm Fund performance and

result in dilution in the value of Fund shares held by long-term shareholders. The Company and the Adviser reserve the right to (i) reject a purchase or exchange order, (ii) delay payment of immediate cash redemption proceeds for up to seven calendar days, (iii) revoke a shareholder's privilege to purchase Fund shares (including exchanges), or (iv) limit the amount of any exchange. An investor may receive notice that their purchase order or exchange has been rejected after the day the order is placed or after acceptance by a financial intermediary. It is currently expected that a shareholder would receive notice that its purchase order or exchange has been rejected within 48 hours after such purchase order or exchange has been received by the Company in good order. The Company and the Adviser will not be liable for any loss resulting from rejected purchase orders. To minimize harm to the Company and its shareholders (or the Adviser), the Company (or the Adviser) will exercise their right if, in the Company's (or the Adviser's) judgment, an investor has a history of excessive trading or if an investor's trading, in the judgment of the Company or the Adviser, has been or may be disruptive to the Fund. No waivers of the provisions of the policy established to detect and deter market timing and other excessive trading activity are permitted that would harm the Fund and its shareholders or would subordinate the interests of the Fund and its shareholders to those of the Adviser or any affiliated person or associated person of the Adviser.

Pursuant to the policy adopted by the Company's Board of Directors, the Adviser has developed criteria that it uses to identify trading activity that may be excessive. If, in its judgment, the Adviser detects excessive, short-term trading, the Adviser may reject or restrict a purchase request and may further seek to close an investor's account with the Fund.

There is no assurance that the Fund will be able to identify market timers, particularly if they are investing through intermediaries.

If necessary, the Company may prohibit additional purchases of Fund shares by a financial intermediary or by certain customers of the financial intermediary. Financial intermediaries may also monitor their customers' trading activities in the Fund. The criteria used by intermediaries to monitor for excessive trading may differ from the criteria used by the Company. If a financial intermediary fails to enforce the Company's excessive trading policies, the Company may take certain actions, including terminating the relationship.

---

## PURCHASE OF FUND SHARES

---

### PURCHASE OF INSTITUTIONAL SHARES THROUGH AN INSTITUTIONAL ORGANIZATION

Institutional shares of the Fund may be sold to corporations or other institutions such as trusts, foundations or broker-dealers purchasing for the accounts of others ("Institutional Organizations"). If you purchase Institutional shares through an Institutional Organization, you may be charged a transaction-based fee or other fee for the services of such organization. Each Institutional Organization is responsible for transmitting to its customers a schedule of any such fees and information regarding any additional or different conditions regarding purchases. Customers of Institutional Organizations should read this Prospectus in light of the terms governing accounts with their Institutional Organization. The Fund does not pay compensation to or receive compensation from Institutional Organizations for the sale of Institutional shares.

Certain Institutional Organizations may have agreements with the Fund and may be responsible for promptly transmitting client or customer purchase and redemption orders to the Fund in accordance with such

agreements. An Institutional Organization or, if applicable, its designee that has entered into such an agreement with the Fund or its agent may enter confirmed purchase orders on behalf of clients and customers, with payment to follow no later than the Fund's pricing on the following business day. If payment is not received by such time, the Institutional Organization could be held liable for resulting fees or losses. The Fund will be deemed to have received a purchase or redemption order when an Institutional Organization, or if applicable, its authorized designee, accepts a purchase or redemption order in good order. Orders received by the Fund in good order will be priced at the Fund's NAV next computed after they are accepted by the Institutional Organization or its authorized designee. If a purchase order is not received by the Fund in good order, BNY Mellon in its capacity as transfer agent (the "Transfer Agent") will contact the Institutional Organization to determine the status of the purchase order.

The Fund relies upon the integrity of the Institutional Organizations to ensure that orders are timely and properly submitted. The Fund cannot assure you that an Institutional Organization properly submitted to it all purchase and redemption orders received from the Institutional Organization's customers before the time for determination of the Fund's NAV in order to obtain that day's price.

## **PURCHASE OF INVESTOR SHARES THROUGH A SHAREHOLDER SERVICING AGENT**

Purchase orders for Investor shares may be placed through a financial intermediary ("Shareholder Servicing Agent"). Investor shares are subject to such investment minimums and other terms and conditions as may be imposed by Shareholder Servicing Agents from time to time. Shareholder Servicing Agents may offer additional services to their customers. For further information as to how to direct a Shareholder Servicing Agent to purchase Investor shares of the Fund on your behalf, you should contact your Shareholder Servicing Agent or the Fund's Distributor.

Certain Shareholder Servicing Agents may have agreements with the Fund and may be responsible for promptly transmitting client or customer purchase and redemption orders to the Fund in accordance with such agreements. A Shareholder Servicing Agent or, if applicable, its designee that has entered into such an agreement with the Fund or its agent may enter confirmed purchase orders on behalf of clients and customers, with payment to follow no later than the Fund's pricing on the following business day. If payment is not received by such time, the Shareholder Servicing Agent could be held liable for resulting fees or losses. The Fund will be deemed to have received a purchase or redemption order when the Shareholder Servicing Agent, or if applicable, its authorized designee, accepts a purchase or redemption order in good order. Orders received by the Fund in good order will be priced at the Fund's NAV next computed after they are accepted by the Shareholder Servicing Agent or its authorized designee. If a purchase order is not received by the Fund in good order, the Transfer Agent will contact the Shareholder Servicing Agent to determine the status of the purchase order.

The Fund relies upon the integrity of the Shareholder Servicing Agent to ensure that orders are timely and properly submitted. The Fund cannot assure you that a Shareholder Servicing Agent properly submitted to it all purchase and redemption orders received from the Shareholder Servicing Agent's customers before the time for determination of the Fund's NAV in order to obtain that day's price.

## **SHAREHOLDER SERVICING PLAN**

The Fund has adopted a Shareholder Servicing Plan that allows Investor shares of the Fund to pay service fees to Shareholder Servicing Agents, including the Adviser. Under the Shareholder Servicing Plan, if a Shareholder

Servicing Agent provides shareholder services, including responding to shareholder inquiries and assisting shareholders with their accounts, the Fund may pay shareholder service fees to the Shareholder Servicing Agent at an annual rate not to exceed 0.25% of the average daily net asset value of the Investor shares beneficially owned by the Shareholder Servicing Agent's clients.

## **PURCHASE OF INSTITUTIONAL AND INVESTOR SHARES THROUGH THE FUND'S TRANSFER AGENT**

You may also purchase Institutional and Investor shares directly from the Fund at the NAV per share next calculated after your order is received by the Transfer Agent in good order. The Fund's NAV is calculated once daily at the close of regular trading hours on the NYSE (generally 4:00 p.m. Eastern time) on each day the NYSE is open. After an initial purchase is made, the Transfer Agent will set up an account for you on the Fund's records, which will show all of your transactions and the balance of the shares you own. You can only purchase shares on days the NYSE is open and through the means described below. The Fund's officers are authorized to waive the minimum initial and subsequent investment requirements.

Initial Investment By Mail. Subject to acceptance by the Fund, an account may be opened by completing and signing an Account Application and mailing it to the Fund at the address noted below, together with a check (\$1,000,000 minimum for Institutional shares and \$10,000 minimum for Investor shares (\$2,000 minimum for IRA accounts accepted for Investor shares)) payable to Bogle Investment Management Small Cap Growth Fund:

Bogle Investment Management Small Cap Growth Fund  
c/o BNY Mellon Investment Servicing (US) Inc.  
P.O. Box 9809  
Providence, RI 02940

or overnight to:

Bogle Investment Management Small Cap Growth Fund  
c/o BNY Mellon Investment Servicing (US) Inc.  
4400 Computer Drive  
Westborough, MA 01581

Subject to acceptance by the Fund, payment for the purchase of shares received by mail will be credited to a shareholder's account at the NAV per share of the Fund next determined after receipt. Such payment need not be converted into federal funds (monies credited to the Fund's custodian bank by a Federal Reserve Bank) before acceptance by the Fund. No third party endorsed checks (including checks issued by credit card companies) or foreign checks will be accepted as payment for shares.

Initial Investment By Wire. Subject to acceptance by the Fund, shares may be purchased by wiring federal funds (\$1,000,000 minimum for Institutional shares and \$10,000 minimum for Investor shares (\$2,000 minimum for IRA accounts accepted for Investor shares)) to The Bank of New York Mellon. A completed Account Application should be forwarded to the Fund at the address noted above under "Initial Investment By Mail" in advance of the wire. Notification must be given to the Fund at 1-877-264-5346 prior to 4:00 p.m., Eastern time, on the business day prior to the wire date. (Prior notification must also be received from investors with existing accounts.) For current wire instructions, contact the Transfer Agent at 1-877-264-5346.

Federal funds wire purchases will be accepted only on days when the Fund and The Bank of New York Mellon are open for business.

Additional Investments. Additional investments may be made at any time (\$5,000 minimum for Institutional shares and \$250 minimum for Investor shares (\$100 minimum for IRA accounts accepted for Investor shares)) by purchasing shares at the NAV per share of the Fund by mailing a check to the Fund at the address noted under “Initial Investment By Mail” (payable to Bogle Investment Management Small Cap Growth Fund) or by wiring monies to the custodian bank as outlined above under “Initial Investment By Wire.” Notification must be given to the Fund at 1-877-264-5346 prior to 4:00 p.m., Eastern time, on the business day prior to the wire date. Initial and additional purchases made by check cannot be redeemed until payment of the purchase has been collected, which may take up to fifteen calendar days from the purchase date.

Automatic Investment Plan. Additional investments in shares of the Fund may be made automatically by authorizing the Transfer Agent to withdraw funds from your bank account through the Automatic Investment Plan. Investors who would like to participate in the Automatic Investment Plan should call the Transfer Agent at 1-877-264-5346, or complete the appropriate section of the account application. The minimum initial investment for the Automatic Investment Plan is \$10,000 for Investor shares and \$1,000,000 for Institutional shares. Minimum monthly payments are \$100 for Investor shares and \$1,000 for Institutional shares, and minimum quarterly payments are \$300 and \$3,000 respectively.

Retirement Plans/IRA Accounts. A \$15.00 retirement custodial maintenance fee is charged per Investor Class IRA account per year. The Adviser may reimburse a portion of this fee, thereby reducing the charge to the retirement investor. For further information as to applications and annual fees, contact the Transfer Agent at 1-877-264-5346. To determine whether the benefits of an IRA are available and/or appropriate, you should consult with a tax adviser.

## OTHER PURCHASE INFORMATION

The Company reserves the right, in its sole discretion, to suspend the offering of Institutional and Investor shares or to reject purchase orders when, in the judgment of management, such suspension or rejection is in the best interests of the Fund. The Adviser will monitor the Fund’s total assets and, subject to Board approval, may decide to close the Fund at any time to new investments or to new accounts due to concerns that a significant increase in the size of the Fund may adversely affect the implementation of the Fund’s strategy. The Adviser, subject to Board approval, may also choose to reopen the Fund to new investments at any time, and may subsequently close the Fund again should concerns regarding the Fund’s size recur. If the Fund closes to new investments, the Fund would be offered only to certain existing shareholders of the Fund and certain other persons, who may be subject to cumulative, maximum purchase amounts, as follows:

- a. persons who already hold shares of the Fund directly or through accounts maintained by brokers by arrangement with the Adviser,
- b. existing and future clients of the Adviser and of Financial Advisers and Planners whose clients already hold shares of the Fund,
- c. employees of the Adviser and their families, and
- d. directors of the Company.

Distributions to all shareholders of the Fund will continue to be reinvested unless a shareholder elects otherwise. The Adviser, subject to Board approval, reserves the right to implement other purchase limitations at the time of closing, including limitations on current shareholders.

Purchases of the Fund's shares will be made in full and fractional shares of the Fund calculated to three decimal places. In the interest of economy and convenience, certificates for shares will not be issued except at the written request of the shareholder. Certificates for fractional shares, however, will not be issued.

Shares may be purchased and subsequent investments may be made by principals and employees of the Adviser, and by their family members, either directly or through their IRAs and by any pension and profit-sharing plan of the Adviser, without being subject to the minimum investment limitation. The Company's officers are authorized to waive the minimum initial and subsequent investment requirements.

Good Order. A purchase request is considered to be in good order when all necessary information is provided and all required documents are properly completed, signed and delivered. Please see "Purchase of Fund Shares" for instructions. Purchase requests not in good order may be rejected.

## CUSTOMER IDENTIFICATION PROGRAM

Federal law requires the Company to obtain, verify and record identifying information, which may include the name, residential or business street address, date of birth (for an individual), social security or taxpayer identification number or other identifying information for each investor who opens or reopens an account with the Company. Applications without the required information, or without any indication that a social security or taxpayer identification number has been applied for, may not be accepted. After acceptance, to the extent permitted by applicable law or its customer identification program, the Company reserves the right (a) to place limits on transactions in any account until the identity of the investor is verified; or (b) to refuse an investment in a Company portfolio or to involuntarily redeem an investor's shares and close an account in the event that an investor's identity is not verified. The Company and its agents will not be responsible for any loss in an investor's account resulting from the investor's delay in providing all required identifying information or from closing an account and redeeming an investor's shares when an investor's identity cannot be verified.

---

## REDEMPTION OF FUND SHARES

---

You may redeem Institutional and Investor shares of the Fund at the next NAV calculated after a redemption request is received by the Transfer Agent in good order. The Fund's NAV is calculated once daily at the close of regular trading hours on the NYSE (generally 4:00 p.m. Eastern time) on each day the NYSE is open. You can only redeem shares of the Fund on days the NYSE is open and through the means described below.

You may redeem Institutional and Investor shares of the Fund by mail, or, if you are authorized, by telephone (excluding retirement accounts where BNY Mellon Investment Servicing Trust Company acts as custodian). The value of shares redeemed may be more or less than the purchase price, depending on the market value of the investment securities held by the Fund.

Redemption By Mail. Your redemption requests should be addressed to Bogle Investment Management Small Cap Growth Fund, c/o BNY Mellon Investment Servicing (US) Inc., P.O. Box 9809, Providence, RI 02940, or for

overnight delivery to Bogle Investment Management Small Cap Growth Fund, c/o BNY Mellon Investment Servicing (US) Inc., 4400 Computer Driver, Westborough, MA 01581 and must include:

- the share certificates, if issued;
- a letter of instruction, if required, or a stock assignment specifying the number of shares or dollar amount to be redeemed, signed by all registered owners of the shares in the exact names in which they are registered;
- any required Medallion signature guarantees, which are required when (i) the redemption proceeds are to be sent to someone other than the registered shareholder(s), (ii) the redemption request is for \$50,000 or more, or (iii) a share transfer request is made. A Medallion signature guarantee is a special signature guarantee that may be obtained from a domestic bank or trust company, broker-dealer, clearing agency or savings association which is a participant in a Medallion signature guarantee program recognized by the Securities Transfer Association. A Medallion imprint or Medallion stamp indicates that the financial institution is a member of a Medallion signature guarantee program and is an acceptable signature guarantor. The three recognized signature guarantee Medallion Programs are Securities Transfer Agent Medallion Program (STAMP), Stock Exchanges Medallion Program (SEMP) and New York Stock Exchange, Inc. Medallion Program (MSP). Signature guarantees which are not a part of these programs will not be accepted. Please note that a notary public stamp or seal is not acceptable; and
- other supporting legal documents, if required, in the case of estates, trusts, guardianships, custodianships, corporations, pension and profit sharing plans and other organizations.

Redemption By Telephone. In order to utilize the Telephone Redemption Option, you must indicate that option on your Account Application. Please note that the Telephone Redemption Option is not available for retirement accounts. You may then initiate a redemption of shares by calling the Fund at 1-877-264-5346 and requesting that the redemption proceeds be mailed to the primary registration address or wired per the authorized instructions. A wire charge of \$7.50 is assessed and charged to the shareholder. Shares cannot be redeemed by telephone if share certificates are held for those shares. If the Telephone Redemption Option is authorized, the Fund and its Transfer Agent may act on telephone instructions from any person representing himself or herself to be a shareholder and believed by the Fund or its Transfer Agent to be genuine. The Transfer Agent's records of such instructions are binding and shareholders, not the Fund or its Transfer Agent, bear the risk of loss in the event of unauthorized instructions reasonably believed by the Fund or its Transfer Agent to be genuine. The Fund and the Transfer Agent will employ reasonable procedures to confirm that instructions communicated are genuine and, if it does not, it may be liable for any losses due to unauthorized or fraudulent instructions. The procedures employed by the Fund and the Transfer Agent in connection with transactions initiated by telephone include tape recording of telephone instructions and requiring some form of personal identification prior to acting upon instructions received by telephone.

Involuntary Redemption. The Fund reserves the right to redeem a shareholder's account in the Fund (other than those in an IRA account) at any time the value of the account falls below \$500. Shareholders will be notified in writing that the value of their account is below \$500 and will be allowed 30 days to make additional investments before the involuntary redemption is processed.

The Fund may assert the right to redeem your shares at current NAV at any time and without prior notice if, and to the extent that, such redemption is necessary to reimburse the Fund for any loss sustained by reason of your failure to make full payment for shares of the Fund you previously purchased or subscribed for.

## INVESTOR CLASS

If you purchased Investor shares through a Shareholder Servicing Agent, you must place all redemption orders for Investor shares through that Shareholder Servicing Agent in accordance with instructions or limitations pertaining to your account with your Shareholder Servicing Agent. Redemption orders for Investor shares are effected at the NAV next determined after the order is received by the Fund's Transfer Agent. While no redemption fee is imposed by the Fund, Shareholder Servicing Agents may charge your account for redemption services. You should contact your Shareholder Servicing Agent or the Fund's Transfer Agent for further information regarding redemption of Investor shares, including the availability of wire or telephone redemption privileges, or whether you may elect to participate in a systematic withdrawal plan.

## OTHER REDEMPTION INFORMATION

Redemption proceeds for shares of the Fund recently purchased by check may not be distributed until payment for the purchase has been collected, which may take up to fifteen days from the purchase date. Shareholders can avoid this delay by utilizing the wire purchase option. Redemption proceeds will ordinarily be paid within seven business days after a redemption request is received by the Transfer Agent in good order. The Fund may suspend the right of redemption or postpone the date at times when the NYSE or the bond market is closed or under any emergency circumstances as determined by the SEC.

If the Company's Board of Directors determines that it would be detrimental to the best interests of the remaining shareholders of the Fund to make payment wholly or partly in cash, the Fund may pay the redemption proceeds in whole or in part by a distribution in-kind of readily marketable securities held by the Fund in lieu of cash in conformity with applicable rules of the SEC. Investors generally will incur brokerage charges on the sale of portfolio securities so received in the payment of redemptions. If a shareholder receives redemption proceeds in-kind, the shareholder will bear the market risk of the securities received in the redemption until their disposition and should expect to incur transaction costs upon the disposition of the securities. The Company has elected, however, to be governed by Rule 18f-1 under the Investment Company Act of 1940, as amended, so that the Fund is obligated to redeem its shares solely in cash up to the lesser of \$250,000 or 1% of its NAV during any 90-day period for any one shareholder of the Fund.

Good Order. A redemption request is considered to be in good order when all necessary information is provided and all required documents are properly completed, signed and delivered. Please see "Redemption of Fund Shares" for instructions. Redemption requests not in good order may be delayed.

---

## DIVIDENDS AND DISTRIBUTIONS

---

The Fund declares and pays dividends of substantially all of its net investment income annually. The Fund distributes, at least annually, substantially all net realized capital gains, if any, earned. The Fund will inform shareholders of the amount and nature of all such income or gains.

Dividends are paid in the form of additional shares of the same class of the Fund, unless you have elected prior to the date of distribution to receive payment in cash. Such election, or any revocation thereof, must be made in writing to the Transfer Agent and will become effective with respect to dividends paid after its receipt. Dividends that are otherwise taxable are taxable to you whether received in cash or in additional shares of the Fund. It is anticipated that expenses incurred by each class of shares of the Fund will differ and, accordingly, that the dividends distributed with respect to each class may differ.

---

## TAXES

---

The following is a summary of certain U.S. tax considerations relevant under current law, which may be subject to change in the future. Except where otherwise indicated, the discussion relates to investors who are individual U.S. citizens or residents. You should consult your tax adviser for further information regarding federal, state, local and/or foreign tax consequences relevant to your specific situation.

Federal Taxes of Distributions. The Fund contemplates distributing as dividends each year all or substantially all of its taxable income, including its net capital gain (the excess of net long-term capital gain over net short-term capital loss). Except as otherwise discussed below, you will be subject to federal income tax on Fund distributions regardless of whether they are paid in cash or reinvested in additional shares. Fund distributions attributable to short-term capital gains and net investment income will generally be taxable to you as ordinary income, except as discussed below.

Distributions attributable to the net capital gain of the Fund will be taxable to you as long-term capital gain, no matter how long you have owned your Fund shares. The maximum long-term capital gain rate applicable to individuals, estates, and trusts is currently 15%. You will be notified annually of the tax status of distributions to you.

Distributions of “qualifying dividends” will also generally be taxable to you at long-term capital gain rates, as long as certain requirements are met. In general, if 95% or more of the gross income of the Fund (other than net capital gain) consists of dividends received from domestic corporations or “qualified” foreign corporations (“qualifying dividends”), then all distributions paid by the Fund to individual shareholders will be taxed at long-term capital gains rates. But if less than 95% of the gross income of the Fund (other than net capital gain) consists of qualifying dividends, then distributions paid by the Fund to individual shareholders will be qualifying dividends only to the extent they are derived from qualifying dividends earned by the Fund. For the lower rates to apply, you must have owned your Fund shares for at least 61 days during the 121-day period beginning on the date that is 60 days before the Fund’s ex-dividend date (and the Fund will need to have met a similar holding period requirement with respect to the shares of the corporation paying the qualifying dividend). The amount of the Fund’s distributions that qualify for this favorable treatment may be reduced as a result of the Fund’s securities lending activities (if any), a high portfolio turnover rate or investments in debt securities or “non-qualified” foreign corporations.

Distributions from the Fund will generally be taxable to you in the taxable year in which they are paid, with one exception. Distributions declared by the Fund in October, November or December and paid in January of the following year are taxed as though they were paid on December 31.

A portion of distributions paid by the Fund to shareholders that are corporations may also qualify for the dividends-received deduction for corporations, subject to certain holding period requirements and debt financing limitations.

If you purchase shares just before a distribution, the purchase price will reflect the amount of the upcoming distribution, but you will be taxed on the entire amount of the distribution received, even though, as an economic matter, the distribution simply constitutes a return of capital. This is known as “buying into a dividend.”

Sales and Exchanges. You will generally recognize taxable gain or loss for federal income tax purposes on a sale, exchange or redemption of your shares based on the difference between your tax basis in the shares and the amount you receive for them. Generally, you will recognize long-term capital gain or loss if you have held your Fund shares for over twelve months at the time you dispose of them. (To aid in computing your tax basis, you should retain your account statements for the periods during which you held shares.)

Any loss realized on shares held for six months or less will be treated as a long-term capital loss to the extent of any capital gain dividends that were received on the shares. Additionally, any loss realized on a disposition of shares of the Fund may be disallowed under “wash sale” rules to the extent the shares disposed of are replaced with other shares of the Fund within a period of 61 days beginning 30 days before and ending 30 days after the shares are disposed of, such as pursuant to a dividend reinvestment in shares of the Fund. If disallowed, the loss will be reflected in an upward adjustment to the basis of the shares acquired.

IRAs and Other Tax-Qualified Plans. The one major exception to the preceding tax principles is that distributions on, and sales, exchanges and redemptions of, shares held in an IRA (or other tax-qualified plan) will not be currently taxable.

Backup Withholding. The Fund may be required in certain cases to withhold and remit to the U.S. Treasury a percentage of taxable dividends or gross proceeds realized upon sale payable to shareholders who have failed to provide a correct tax identification number in the manner required, or who are subject to withholding by the Internal Revenue Service for failure to properly include on their return payments of taxable interest or dividends, or who have failed to certify to the Fund that they are not subject to backup withholding when required to do so or that they are “exempt recipients.” The current backup withholding rate is 28%.

U.S. Tax Treatment of Foreign Shareholders. Generally, nonresident aliens, foreign corporations and other foreign investors are subject to a 30% withholding tax on dividends paid by a U.S. corporation, although the rate may be reduced for an investor that is a qualified resident of a foreign country with an applicable tax treaty with the United States. In the case of a regulated investment company such as the Fund, however, certain categories of dividends are exempt from the 30% withholding tax. These generally include dividends attributable to the Fund’s net capital gains (the excess of net long-term capital gains over net short-term capital loss) and, for taxable years of the Fund beginning before January 1, 2012, dividends attributable to the Fund’s interest income from U.S. obligors and dividends attributable to net short-term capital gains of the Fund.

In contrast, if a foreign investor conducts a trade or business in the United States and the investment in the Fund is effectively connected with that trade or business, or a foreign individual investor is present in the United States for 183 days or more in a calendar year, then the foreign investor’s income from the Fund will generally be subject to U.S. federal income tax at graduated rates in a manner similar to the income of a U.S. citizen or resident.

In addition, beginning January 1, 2014, the Fund will be required to withhold 30% tax on payments to foreign entities that do not meet specified information reporting requirements under the Foreign Account Tax Compliance Act.

Foreign shareholders will generally not be subject to U.S. tax on gains realized on sale, exchange or redemption of shares of the Fund.

All foreign investors should consult their own tax advisers regarding the tax consequences in their country of residence of an investment in the Fund.

State and Local Taxes. You may also be subject to state and local taxes on income or gain from Fund shares. State income taxes may not apply, however, to the portions of the Fund's distributions, if any, that are attributable to interest on U.S. government securities. You should consult your tax adviser regarding the tax status of distributions in your state and locality.

Future Tax Treatment. Some of the tax provisions described above are subject to sunset provisions. Specifically, a sunset provision provides that the 15% long-term capital gain rate, the taxation of dividends at the long-term capital gain rate and the backup withholding rate will change after 2012.

More information about taxes is contained in the Fund's SAI.

---

## CONSIDERATIONS FOR TAXABLE INVESTORS

---

Those investment strategies that require periodic changes to portfolio holdings with the expectation of outperforming equity indices are typically referred to as "active" strategies. These strategies contrast with "passive" ("index") strategies that buy and hold only the stocks in the equity indices. Passive strategies tend to trade infrequently — only as the stocks in the indices change (largely due to changes in the sizes of the companies in the indices, takeovers or bankruptcies). Most equity mutual funds pursue active strategies, which have higher portfolio turnover than passive strategies.

The generally higher portfolio turnover of active investment strategies can adversely affect taxable investors, especially those in higher marginal tax brackets, in two ways. First, fund short-term capital gains, which often accompany higher turnover investment strategies, are currently taxed to shareholders as ordinary income. Ordinary income tax rates are higher than long-term capital gain tax rates for middle and upper income taxpayers. Thus, the tax liability is often higher for investors in active strategies. Second, the more frequent realization of gains caused by higher turnover investment strategies means that taxes will be paid sooner. Such acceleration of the tax liability is financially more costly to investors. Less frequent realization of capital gains allows the payment of taxes to be deferred until later years, allowing more of the gains to compound before taxes are paid. Consequently, after-tax compound rates of return will generally be higher for taxable investors using investment strategies with very low turnover, compared with high turnover strategies. The difference is particularly large when the general market rates of return are higher than average.

Although tax considerations should not typically drive investment decisions, the Adviser recommends that all of its investors consider their ability to allocate tax-deferred assets (such as IRAs and other retirement plans) to active strategies, and taxable assets to lower turnover passive strategies, when considering their investment options.

# FINANCIAL HIGHLIGHTS

The table below sets forth certain financial information for the periods indicated, including per share information results for a single Fund share. The term “Total investment return” indicates how much your investment would have increased or decreased during this period of time and assumes that you have reinvested all dividends and distributions. This information has been derived from the Fund’s financial statements audited by PricewaterhouseCoopers LLP, the Fund’s independent registered public accounting firm. This information should be read in conjunction with the Fund’s financial statements which, together with the report of the independent registered public accounting firm, are included in the Fund’s annual report, which is available upon request (see back cover for ordering instructions).
